KUSCH+CO

by Nowy Styl

Characterised by an organic design language and sporty charms – this seating shell armchair, available with two different backrest heights, reflects the dynamics of our time. Fresh, agile and somewhat cheeky. Offering a high level of individualisation through a fascinating number of options. Several distinct frame variations. Multi-coloured surfaces.

Design by Norbert Geelen

After having completed his training as industrial designer at the University of Essen, he started freelancing at the Italian Studio Mattheo Thun in Milan. Together with his partner Robert Kilders, he founded the design studio bert&bert in 1997. Since 2005, Norbert Geelen feels at home both in his German office in Straelen and in his Milan studio. He has specialised in designing upmarket lifestyle products and furniture.

Variations

Armchair on 4 legs

Somewhat out of the ordinary. Unlike most other four-legged frames where the rear legs protrude backwards in a wider angle, the Lupino frame is shaped almost symmetrically. The positive outcome: truly extraordinary elegant looks.

Armchair on sled frame

With a seeming weightlessness, the seat shell seems to be floating above the sled base frame made of trapezoidal-bent, slender round rod.

Swivel armchair

Minimalist design at its finest. The four prongs of the base reach upwards, leaving more space underneath. The seat shell is swivelling, offering maximum comfort through the column seat height 47 cm. Additionally available with the Relax seat inclination, seat height 45 cm.

Height adjustable swivel armchair / leg rest

With these variations, the seat shell is height adjustable between 44 and 56 cm. The line-up includes a practical leg rest featuring the same aluminium base, however with a flat seat instead of a seat shell. Suited either as stand-alone seat or as leg rest. Both swiveling and height adjustable.

Armchair on 4 wooden legs*

Next to its appealing design language, this variation excels in versatility. The wooden frame is seamlessly attached to the seat shell. A detail that highlights its coziness.

*Available from mid-2020
